

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

## 1. Identification of the substance/mixture and of the company/undertaking

<b>Product name</b>	EL PRE-CATALYZED LACQUER-GLOSS	
<b>Product code</b>	NUC2409	Formula date: 2018-04-09
<b>Intended use</b>	Coating for professional use	
	Axalta Coating Systems, LLC 1717 English Road US High Point, NC 27262	
<b>Telephone</b>	Product information Medical emergency Transportation emergency	(855) 6-AXALTA (855) 274-5698 (800) 424-9300 (CHEMTREC)

## 2. Hazards identification

This product is considered hazardous based on GHS classification criteria.

### Classification

Flammable liquids	Category 2
Serious eye damage/eye irritation	Category 1
Skin sensitisation	Category 1
Carcinogenicity	Category 1A
Toxicity for reproduction	Category 2
Target Organ Systemic Toxicant - Single exposure	Category 3
Target Organ Systemic Toxicant - Repeated exposure	Category 2

### Label elements

#### Pictograms

Signal word: Danger

#### Hazard statements

- Highly flammable liquid and vapour.
- May cause an allergic skin reaction.
- Causes serious eye damage.
- May cause drowsiness or dizziness.
- May cause cancer.
- Suspected of damaging fertility or the unborn child.
- May cause damage to organs through prolonged or repeated exposure.

#### Precautionary statements

- Obtain special instructions before use.
- Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- Ground/bond container and receiving equipment.
- Use explosion-proof electrical/ventilating/lighting equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.
- Use only outdoors or in a well-ventilated area.

Contaminated work clothing should not be allowed out of the workplace.  
Wear protective gloves/protective clothing/eye protection/face protection.  
IF ON SKIN: Wash with plenty of soap and water.  
IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.  
IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Immediately call a POISON CENTER/doctor.  
Specific treatment (see supplemental first aid instructions on this label).  
If skin irritation or rash occurs: Get medical advice/ attention.  
Wash contaminated clothing before reuse.  
Store in a well-ventilated place. Keep container tightly closed.  
Store locked up.  
Dispose of contents/container in accordance with local regulations.

**Other hazards which do not result in classification**

Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

**The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity:**

9.5 %

### 3. Composition/information on ingredients

Mixture of synthetic resins, pigments, and solvents

**Components**

CAS-No.	Chemical name	Concentration
123-86-4	Butyl acetate	15 - 26%
64-17-5	Ethyl alcohol	15 - 26%
67-64-1	Acetone	4 - 15%
8032-32-4	Vm&p naphtha	4 - 15%
78-83-1	Isobutyl alcohol	1 - 4%
67-63-0	Isopropyl alcohol	1 - 4%
71-36-3	N-butyl alcohol	1 - 4%
108-65-6	Propylene glycol monomethyl ether acetate	1 - 4%
108-88-3	Toluene	1 - 4%
100-41-4	Ethylbenzene	0.1 - 1.0%
50-00-0	Formaldehyde	0.1 - 1.0%
-	Trade Secret Additive	0.1 - 1.0%

Any concentration shown as a range is due to batch variation.

### 4. First aid measures

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

**Eye contact**

Remove contact lenses. Irrigate copiously with clean, fresh water for at least 15 minutes, holding the eyelids apart. Seek medical advice.

**Skin contact**

Do NOT use solvents or thinners. Take off all contaminated clothing immediately. Wash skin thoroughly with soap and water or use recognized skin cleanser. If skin irritation persists, call a physician.

**Inhalation**

Avoid inhalation of vapour or mist. Move to fresh air in case of accidental inhalation of vapours. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician.

**Ingestion**

If swallowed, seek medical advice immediately and show this safety data sheet (SDS) or product label. Do NOT induce vomiting. Keep at rest.

**Most Important Symptoms/effects, acute and delayed**

**Inhalation**

May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

**Ingestion**

May result in gastrointestinal distress.

**Skin or eye contact**

May cause irritation or burning of the eyes. Repeated or prolonged liquid contact may cause skin irritation with discomfort and dermatitis.

**Indication of Immediate medical attention and special treatment needed if necessary**

No data available on the product. See section 3 and 11 for hazardous ingredients found in the product.

## 5. Firefighting measures

**Suitable extinguishing media**

Universal aqueous film-forming foam, Carbon dioxide (CO<sub>2</sub>), Dry chemical

**Extinguishing media which shall not be used for safety reasons**

High volume water jet

**Hazardous combustion products**

CO, CO<sub>2</sub>, smoke, and oxides of any heavy metals that are reported in "Composition, Information on Ingredients" section.

**Fire and Explosion Hazards**

Flammable liquid. Vapor/air mixture will burn when an ignition source is present.

**Special Protective Equipment and Fire Fighting Procedures**

Full protective flameproof clothing should be worn as appropriate. Wear self-contained breathing apparatus for firefighting if necessary. In the event of fire, cool tanks with water spray. Do not allow run-off from fire fighting to enter public sewer systems or public waterways.

## 6. Accidental release measures

**Procedures for cleaning up spills or leaks**

Ventilate area. Remove sources of ignition. Prevent skin and eye contact and breathing of vapor. Wear a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C), eye protection, gloves and protective clothing. Confine, remove with inert absorbent, and dispose of properly.

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

**Environmental precautions**

Do not let product enter drains. Notify the respective authorities in accordance with local law in the case of contamination of rivers, lakes or waste water systems.

## 7. Handling and storage

**Precautions for safe handling**

Observe label precautions. Keep away from heat, sparks, flame, static discharge and other sources of ignition. VAPORS MAY IGNITE EXPLOSIVELY. Vapors may spread long distances. Prevent buildup of vapors. Extinguish all pilot lights and turn off heaters, non-explosion proof electrical equipment and other sources of ignition during and after use and until all vapors are gone. Close container after each use. Ground containers when pouring. Wash thoroughly after handling and before eating or smoking. Do not store above 49 °C (120 °F). If material is a coating: do not sand, flame cut, braze or weld dry coating without a NIOSH approved air purifying respirator with particulate filters or appropriate ventilation, and gloves. Combustible dust clouds may be created where operations produce fine material (dust). Avoid formation of significant deposits of material as they may become airborne and form combustible dust clouds. Build up of fine material should be cleaned using gentle sweeping or vacuuming in accordance with best practices. Cleaning methods (e.g. compressed air) which can generate potentially combustible dust clouds should not be used.

**Advice on protection against fire and explosion**

Solvent vapours are heavier than air and may spread along floors. Vapors may form explosive mixtures with air and will burn when an ignition source is present. Always keep in containers of same material as the original one. Never use pressure to empty container: container is not a pressure vessel. The accumulation of contaminated rags may result in spontaneous combustion. Good housekeeping standards and regular safe removal of waste materials will minimize the risks of spontaneous combustion and other fire hazards.

**Storage**
**Requirements for storage areas and containers**

Observe label precautions. Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. No smoking. Prevent unauthorized access. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

**Advice on common storage**

Store separately from amines, oxidizing agents, strongly alkaline and strongly acidic materials.

OSHA/NFPA Storage Classification: IB

## 8. Exposure controls/personal protection

**Engineering controls and work practices**

Provide adequate ventilation. This should be achieved by a good general extraction and -if practically feasible- by the use of a local exhaust ventilation. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

**National occupational exposure limits**

CAS-No.	Chemical name	Source	Time	Type	Value	Note
123-86-4	Butyl acetate	ACGIH	15 min	STEL	200 ppm	
		ACGIH	8 hr	TWA	150 ppm	
		OSHA	8 hr	TWA	150 ppm	
64-17-5	Ethyl alcohol			TWA	1,000 ppm	
		ACGIH	8 hr	TWA	1,000 ppm	
		OSHA	8 hr	TWA	1,000 ppm	
67-64-1	Acetone	ACGIH	15 min	STEL	750 ppm	
		ACGIH	8 hr	TWA	500 ppm	
		OSHA	8 hr	TWA	1,000 ppm	
8032-32-4	Vm&p naphtha	ACGIH	8 hr	TWA	300 ppm	

## SAFETY DATA SHEET

NUC2409 v2.3

en/US

CAS-No.	Chemical name	Source	Time	Type	Value	Note
78-83-1	Isobutyl alcohol	ACGIH	8 hr	TWA	50 ppm	
		OSHA	8 hr	TWA	100 ppm	
71-36-3	N-butyl alcohol	ACGIH	8 hr	TWA	20 ppm	
		OSHA	8 hr	TWA	100 ppm	
108-88-3	Toluene	OSHA		CEIL	300 ppm	
		OSHA	10 min	TWA	500 ppm	
		OSHA	8 hr	TWA	200 ppm	
100-41-4	Ethylbenzene	ACGIH	8 hr	TWA	20 ppm	
		OSHA	8 hr	TWA	100 ppm	
50-00-0	Formaldehyde	OSHA	15 min	STEL	2 ppm	
		OSHA	8 hr	TWA	0.75 ppm	

### Glossary

CEIL	Ceiling exposure limit
STEL	Short term exposure limit
TL	Threshold limits
TLV	Threshold Limit Value
TWA	Time weighted average
TWA	Time-Weighted Average

### Protective equipment

Personal protective equipment should be worn to prevent contact with eyes, skin or clothing.

### Respiratory protection

Do not breathe vapors or mists. Wear an appropriate, properly fitted NIOSH approved respirator during application and until all vapors and spray mists are exhausted unless air monitoring demonstrates vapor/mist levels are below applicable limits. If respirators are required, use a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C) and particulate filter (NIOSH TC-84A). In confined spaces, or in situations where continuous spray operations are typical, or if proper air-purifying respirator fit is not possible, wear a positive pressure, supplied-air respirator (NIOSH TC-19C). In all cases, follow respirator manufacturer's directions for respirator use.<sup>1</sup>

### Eye protection

Desirable in all industrial situations. Goggles are preferred to prevent eye irritation. If safety glasses are substituted, include splash guard or side shields.

### Skin and body protection

Choose skin and body protection as appropriate for the concentration and quantity of hazardous substances, and to the specific work-place practices.

### Hygiene measures

Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.

### Environmental exposure controls

Do not let product enter drains.

For ecological information, refer to Ecological Information Section 12.

## 9. Physical and chemical properties

### Appearance

**Form:** liquid      **Colour:** clear

Flash point	1 °F
Lower Explosive Limit	0.9 %

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

Upper Explosive Limit	20 %
Evaporation rate	Slower than Ether
Vapor pressure of principal solvent	33.5 hPa
Water solubility	appreciable
Vapor density of principal solvent (Air = 1)	4
Approx. Boiling Range	56 °C
Approx. Freezing Range	-114 – -51 °C
Gallon Weight (lbs/gal)	7.53
Specific Gravity	0.90
Percent Volatile By Volume	79.88%
Percent Volatile By Weight	72.79%
Percent Solids By Volume	20.13%
Percent Solids By Weight	27.21%
pH (waterborne systems only)	No data available.
Partition coefficient: n-octanol/water	No data available
Ignition temperature	232 °C DIN 51794
Decomposition temperature	Not applicable.
Viscosity (23 °C)	Not applicable. ISO 2431-1993
VOC* less exempt (lbs/gal)	5.4
VOC* as packaged (lbs/gal)	5.1

\* VOC less exempt (theoretical) and VOC as packaged (theoretical) are based upon the VOC of the packaged material at the point of manufacture.

## 10. Stability and reactivity

**Stability**

Stable

**Conditions to avoid**

Stable under recommended storage and handling conditions (see section 7).

**Materials to avoid**

Store separately from amines, oxidizing agents, strongly alkaline and strongly acidic materials.

**Hazardous decomposition products**

When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen.

**Hazardous Polymerization**

Will not occur.

**Sensitivity to Static Discharge**

Solvent vapors in air may explode if static grounding and bonding is not used during transfer of this product.

**Sensitivity to Mechanical Impact**

None known.

## 11. Toxicological information

**Information on likely routes of exposure**
**Inhalation**

May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

**Ingestion**

May result in gastrointestinal distress.

**Skin or eye contact**

May cause irritation or burning of the eyes. Repeated or prolonged liquid contact may cause skin irritation with discomfort and dermatitis.

**Delayed and immediate effects and also chronic effects from short and long term exposure:**

**Acute oral toxicity**

not hazardous

**Acute dermal toxicity**

not hazardous

**Acute inhalation toxicity**

Not classified according to GHS criteria

% of unknown composition: 9.5 %

**Skin corrosion/irritation**

Not classified according to GHS criteria

**Serious eye damage/eye irritation**

Acetone	Category 2A
Isobutyl alcohol	Category 1
Isopropyl alcohol	Category 2A
N-butyl alcohol	Category 1
Propylene glycol monomethyl ether acetate	Category 2B

**Respiratory sensitisation**

Not classified according to GHS criteria

**Skin sensitisation**

Formaldehyde	Category 1
Trade Secret Additive	Category 1

**Germ cell mutagenicity**

Not classified according to GHS criteria

**Carcinogenicity**

Ethylbenzene	Category 2
Formaldehyde	Category 1A

**Toxicity for reproduction**

Toluene Category 2

**Target Organ Systemic Toxicant - Single exposure**

No data available.

**Target Organ Systemic Toxicant - Repeated exposure**

No data available.

**Aspiration toxicity**

Not classified according to GHS criteria

**Numerical measures of toxicity (acute toxicity estimation (ATE),etc. )**

No information available.

**Symptoms related to the physical, chemical and toxicological characteristics**

Exposure to component solvents vapours concentration in excess of the stated occupational exposure limit may result in adverse health effect such as mucous membrane and respiratory system irritation and adverse effect on kidney, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness. Through skin resorption, solvents can cause some of the effects described here. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and absorption through the skin. The liquid splashed in the eyes may cause irritation and reversible damage.

**Whether the hazardous chemical is listed by NTP, IARC or OSHA**

Ethylbenzene	IARC 2B
Formaldehyde	IARC 1
Formaldehyde	NTP Known
Formaldehyde	OSHA 1910.1048

## 12. Ecological information

There are no data available on the product itself. The product should not be allowed to enter drains or watercourses.

## 13. Disposal considerations

**Waste Disposal Method**

Do not allow material to contaminate ground water systems. Incinerate or otherwise dispose of waste material in accordance with Federal, State, Provincial, and local requirements. Do not incinerate in closed containers.

## 14. Transport information

**International transport regulations****IMDG (Sea transport)**

UN number: 1263  
Proper shipping name: PAINT

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II  
Marine Pollutant: no  
EmS: F-E,S-E

**ICAO/IATA (Air transport)**

UN number: 1263  
Proper shipping name: PAINT

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II

**DOT**

UN number: 1263

Hazard Class: 3  
Subsidiary Hazard Class: Not applicable.  
Packing group: II  
Marine Pollutant: no

**SAFETY DATA SHEET**

NUC2409 v2.3

en/US

The transport information is for bulk shipments. Exceptions may apply for smaller containers.

**Matters needing attention for transportation**

Confirm that there is no breakage, corrosion, or leakage from the container before shipping. Be sure to prevent damage to cargo by loading so as to avoid falling, dropping, or collapse. Ship in appropriate containers with denotation of the content in accordance with the relevant statutes and rules.

## 15. Regulatory information

**TSCA Status**

In compliance with TSCA Inventory requirements for commercial purposes.

**DSL Status**

All components of the mixture are listed on the DSL.

**Photochemical Reactivity**

Non-photochemically reactive

**Regulatory information**
